Subject Index

Abducens nerve
  Transient abducens paresis after shunting for hydrocephalus. Report of two cases, 467
Abscess
  Antibiotic therapy for multiple abscesses. Letters, 153
  Brain abscess: a review of 400 cases, 794
  Neuropathological and computerized tomographic findings in experimental brain abscess, 590
  "Subacute" postoperative subdural empyema, 761
Achondroplasia
  Hydrocephalus in achondroplasia. Letters, 662
Adamantinoma
  Successful surgical treatment of an odontogenic ossified craniopharyngioma. Case report, 832
Adenocarcinoma
  Intracranial ceruminous gland adenocarcinoma, 952
Adenosine
  Adenosine-stimulated astroglial swelling in cat cerebral cortex *in vivo* with total inhibition by a non-diuretic acylaryloxyacid derivative, 364
Adrenergic neuron
  Existence and localization of adrenergic neurons in meninges from human adults and fetuses, 438
Aerocele
  Late postoperative tension pneumatocele. Case report, 145
Air embolism
  Air embolism from wounds from a pin-type head-holder as a complication of posterior fossa surgery in the sitting position. Case report, 147
  Cardiac catheters for diagnosis and treatment of venous air embolism. A prospective study in man, 610
  Paradoxical cerebral air embolism without an intracardiac septal defect. Case report, 997
Allergic encephalitis
  Induction of lethal experimental allergic encephalomyelitis in nonhuman primates and guinea pigs with human glioblastoma multiforme tissue, 32
Amaurosis fugax
  Recurrent retinal ischemia beyond cervical carotid occlusions. Clinical-angiographic correlations and therapeutic implications, 532
American Association of Neurological Surgeons
  Catecholamine neurotransmitters, psychoactive drugs, and biological clocks. The 1981 Harvey Cushing oration, 669
  Traditions, Transition, and the Torch. The 1981 AANS presidential address, 329
Anastomosis
  Anastomosis between internal carotid artery and anterior cerebral artery with other anomalies of the circle of Willis in a fetal brain, 701
  Huge intraoral aneurysm presenting with dysphagia and dyspnea successfully treated by STA-MCA anastomosis and ICA ligation. Case report, 625
  Transpositions and anastomoses between the posterior cerebral and superior cerebellar arteries. Report of two cases, 967
Anatomical study
  Anastomosis between internal carotid artery and anterior cerebral artery with other anomalies of the circle of Willis in a fetal brain, 701
  Microsurgical anatomy of the supraclinoid portion of the internal carotid artery, 560
  Subarachnoid hemorrhage and cerebrovascular spasm. Morphological study of intracranial arteries based on animal experiments and human autopsies, 869
  Zones in the cerebellar cortex. Their organization and potential relevance to cerebellar stimulation, 254
Aneurysm
  Anastomosis between internal carotid artery and anterior cerebral artery with other anomalies of the circle of Willis in a fetal brain, 701
  Antifibrinolytic therapy in subarachnoid hemorrhage. Letters, 155
  The association of intracranial aneurysms and arteriovenous malformation of the brain. Case report, 971
  Balloon catheter occlusion for cavernous carotid artery injury during transsphenoidal hypophysectomy. Case report, 450
  Effect of common carotid ligation on giant aneurysms of the internal carotid artery. Computerized tomography study, 527
  Effects of profound hypotension on cerebral blood flow during surgery for intracranial aneurysms, 857
  Extracranial PICA aneurysms. Letter, 497
  Giant traumatic false aneurysm of the internal carotid artery associated with a carotid-cavernous fistula. Case report, 813
  Huge intraoral aneurysm presenting with dysphagia and dyspnea successfully treated by STA-MCA anastomosis and ICA ligation. Case report, 625
  Hypothermia and cardiac arrest in the treatment of giant aneurysms of the cerebral circulation and hemangioblastoma of the medulla, 337
  Management of vein of Galen aneurysms. Report of two cases, 457
  Recurrent subarachnoid hemorrhage complicating cerebral arterial ectasia. Case report, 139
  Risk of bleeding from unruptured aneurysms in cases with multiple intracranial aneurysms, 524
  The role of extracranial carotid abnormalities in the genesis of cerebral aneurysms, 693
  Rupture of an aneurysm into a parasellar epidermoid cyst. Case report, 629
  Subarachnoid hemorrhage and cerebrovascular spasm. Morphological study of intracranial arteries based on animal experiments and human autopsies, 869
  A successful approach to vertebrobasilar aneurysms. Technical note, 491
  Transpositions and anastomoses between the posterior cerebral and superior cerebellar arteries. Report of two cases, 967
  Vasoconstrictor activity in cerebrospinal fluid from patients subjected to early surgery for ruptured intracranial aneurysms, 237
Angiogenesis
  Regional blood flow and capillary permeability in the ethylnitrosourea-induced rat glioma, 922
Angiography
  Postoperative angiography. Letters, 153

Index

Angioma
Microsurgical removal of paraventricular cavernous angiomas. Report of two cases, 308
Angiotensin-converting enzyme inhibition
Reversal of experimental delayed cerebral vasospasm by angiotensin-converting enzyme inhibition, 884
Ankylosis
Fibrous ankylosis of the mandible following frontotemporal craniotomy. Case report, 836
Antibiotic therapy
Antibiotic therapy for multiple abscesses. Letters, 153
Brain abscess: a review of 400 cases, 794
Treatment of subdural empyema, 82
Vancomycin and rifampin therapy for *Staphylococcus epidermidis* meningitis associated with CSF shunts. Report of three cases, 633
Antidiuretic hormone
Hyponatremia in intracranial disease: perhaps not the syndrome of inappropriate secretion of antidiuretic hormone (SIADH), 938
Antifibrinolytic therapy
Antifibrinolytic therapy in subarachnoid hemorrhage. Letters, 155
Antigen
Complement fixation by IgM and IgG autoantibodies on cultured human glial cells, 19
Immunological aspects of intrinsic glial tumors, 1
Antituberculous treatment
Intradural tuberculomas of the spinal cord. Report of two cases, 289
Apnea
Apnea testing in the diagnosis of brain death. Clinical and physiological observations, 942
Aqueduct of Sylvius
Stereotaxic reconstruction of the aqueduct of Sylvius, 800
Arachidonic acid
Evaluation of prostaglandin biosynthetic activity in canine basilar artery following subarachnoid injection of blood, 771
Arachnoid cyst
Middle fossa arachnoid cysts. Letters, 853
Spinal cord herniation into a congenital extradural arachnoid cyst causing Brown-Séquard syndrome. Case report, 983
Arachnoiditis
Neurosurgical considerations of cysticercosis of the central nervous system, 382
Arterial anomaly
Anastomosis between internal carotid artery and anterior cerebral artery with other anomalies of the circle of Willis in a fetal brain, 701
Arterial kinking
The role of extracranial carotid abnormalities in the genesis of cerebral aneurysms, 693
Arteriosclerosis
Transpositions and anastomoses between the posterior cerebral and superior cerebellar arteries. Report of two cases, 967
Arteriovenous fistula
Giant traumatic false aneurysm of the internal carotid artery associated with a carotid-cavernous fistula. Case report, 813
Traumatic exophthalmos due to an uncommon arteriovenous fistula without involvement of the cavernous sinus. Case report, 993
Arteriovenous malformation
The association of intracranial aneurysms and arteriovenous malformation of the brain. Case report, 971
Management of vein of Galen aneurysms. Report of two cases, 457
Pathology of arteriovenous malformations embolized with isobutyl-2-cyanoacrylate (bucrylate). Report of two cases, 819
Tentorial arteriovenous malformation presenting as an intracerebral hematoma. Case report, 976
Astrocytoma
Hemispheric supratentorial astrocytomas in children. Long-term results in 29 cases, 170
Lymphocyte subpopulations and responsiveness in rats bearing intracranial tumors induced by avian sarcoma virus, 554
Reoperation for glioblastoma, 917
Astroglial swelling
Adenosine-stimulated astroglial swelling in cat cerebral cortex *in vivo* with total inhibition by a non-diuretic acylaryloxyacid derivative, 364

β-adrenergic receptor
Catecholamine neurotransmitters, psychoactive drugs, and biological clocks. The 1981 Harvey Cushing oration, 669
Bacillus species
Fulminant postsurgical *Bacillus cereus* meningitis. Case report, 637
Balloon catheter occlusion
Balloon catheter occlusion for cavernous carotid artery injury during transsphenoidal hypophysectomy. Case report, 450
Treatment of 54 traumatic carotid-cavernous fistulas, 678
Barbiturate
Barbiturate effects on acute experimental intracranial hypertension, 397
Barbiturate-induced coma therapy for focal cerebral ischemia. Effect after temporary and permanent MCA occlusion, 220
Basal ganglia
Unilateral germinomas involving the basal ganglia and thalamus, 55
BCNU
Efficacy of continuous treatment with radiation in a rat brain-tumor model, 52
Blood-brain barrier
Osmotic blood-brain barrier disruption in the posterior fossa of the dog, 742
Blood-CSF barrier
Alteration of blood-CSF barrier by tumor invasion into the meninges, 445
Blood factor
Individual variations in response of human cerebral arterioles to vasoactive substances, human plasma, and CSF from patients with aneurysmal SAH, 431
Blood viscosity
The effects of mannitol on blood viscosity, 550
Bone cyst
Aneurysmal bone cyst of the skull. Letter, 497

Brain death
Apnea testing in the diagnosis of brain death. Clinical and physiological observations, 942
Brain elasticity
Significance of postshunt ventricular asymmetries, 183
Brain herniation
Hydrocephalus and infratentorial tumors. Incidence, clinical picture, and treatment, 174
Brain stem
Changes in extracellular potassium concentration in cortex and brain stem during the acute phase of experimental closed head injury, 708
Reversible brain-stem dysfunction following acute traumatic subdural hematoma. A clinical and electrophysiological study, 516
Brain-stem tumor
Conservative management of a mesencephalic tuberculoma. Case report, 287
High-dose cyclophosphamide chemotherapy for recurrent CNS tumors in children, 749
Brain stimulation
Burr-hole ring-cap and electrode anchoring device. Technical note, 1004
Zones in the cerebellar cortex. Their organization and potential relevance to cerebellar stimulation, 254
Brain swelling
Barbiturate effects on acute experimental intracranial hypertension, 397
Brain tumor, *see also* specific tumors
Alteration of blood-CSF barrier by tumor invasion into the meninges, 445
Bilateral cavernous sinus metastasis and ophthalmoplegia. Case report, 463
Clinical and pathological study of dysplastic gangliocytoma. Case report, 318
Complement fixation by IgM and IgG autoantibodies on cultured human glial cells, 19
Compression of the anterior visual system by the gyrus rectus. Case report, 272
Craniopharyngiomas: a critical approach to treatment, 371
Differentiation of medulloblastoma. Studies including immunohistochemical localization of glial fibrillary acidic protein, 161
Efficacy of continuous treatment with radiation in a rat brain-tumor model, 52
Esthesioneuroblastoma. Letters, 154
Evaluation of CCNU, VM-26 plus CCNU, and procarbazine in supratentorial brain gliomas. Final evaluation of a randomized study, 27
Hemispheric supratentorial astrocytomas in children. Long-term results in 29 cases, 170
High-dose cyclophosphamide chemotherapy for recurrent CNS tumors in children, 749
Hydrocephalus and infratentorial tumors. Incidence, clinical picture, and treatment, 174
Immunological aspects of intrinsic glial tumors, 1
Induction of lethal experimental allergic encephalomyelitis in nonhuman primates and guinea pigs with human glioblastoma multiforme tissue, 32
Internal irradiation for cystic craniopharyngioma, 896
Lymphocyte subpopulations and responsiveness in rats bearing intracranial tumors induced by avian sarcoma virus, 554
Malignant meningioma: clinical and pathological features, 929
Manifestations and therapeutic considerations in pineal yolk-sac tumors. Case report, 303
Meningiomas associated with large cysts with neoplastic cells in the cyst walls. Report of two cases, 473
Multiple meningiomas following radiation therapy for medulloblastoma. Case report, 282
Pineal tumors in children and adolescents. Treatment by CSF shunting and radiotherapy, 889
Pituitary apoplexy: its incidence and clinical significance, 187
Primary demyelinating disease simulating glioma of the corpus callosum. Report of three cases, 620
Primary intracranial liposarcomas. Letter, 1011
Primitive neuroectodermal tumors of childhood. An approach to therapy, 376
Pubertas praecox in craniopharyngioma. Case report, 127
Radiation treatment for medulloblastoma. A 21-year review, 43
Regional blood flow and capillary permeability in the ethylnitrosourea-induced rat glioma, 922
Reoperation for glioblastoma, 917
Rupture of an aneurysm into a parasellar epidermoid cyst. Case report, 629
Serum prolactin in patients with hypothalamus and pituitary disorders, 194
Simultaneously occurring prolactinomas. Case report, 124
A study of glucocorticoid receptors in intracranial tumors, 757
Subependymoma presenting as subarachnoid hemorrhage. Case report, 643
Successful surgical treatment of an odontogenic ossified craniopharyngioma. Case report, 832
Unusual CT-dense posterior fossa epidermoid cyst. Case report, 654
Brain-tumor immunology
Lymphocyte subpopulations and responsiveness in rats bearing intracranial tumors induced by avian sarcoma virus, 554
Bromocriptine
Cerebellar metastasis from a prolactinoma during treatment with bromocriptine. Case report, 615
Brown-Séquard syndrome
Spinal cord herniation into a congenital extradural arachnoid cyst causing Brown-Séquard syndrome. Case report, 983
Bucrylate
Pathology of arteriovenous malformations embolized with isobutyl-2-cyanoacrylate (bucrylate). Report of two cases, 819
Burr hole
Burr-hole ring-cap and electrode anchoring device. Technical note, 1004

Index

Calvaria
Detection of skull expansion with increased intracranial pressure, 811
Capillary permeability
Regional blood flow and capillary permeability in the ethylnitrosourea-induced rat glioma, 922
Capnography
Cardiac catheters for diagnosis and treatment of venous air embolism. A prospective study in man, 610
Capsule formation
Neuropathological and computerized tomographic findings in experimental brain abscess, 590
Carcinomatosis
Alteration of blood-CSF barrier by tumor invasion into the meninges, 445
Cardiac arrest
Hypothermia and cardiac arrest in the treatment of giant aneurysms of the cerebral circulation and hemangioblastoma of the medulla, 337
Carotid artery
Balloon catheter occlusion for cavernous carotid artery injury during transsphenoidal hypophysectomy. Case report, 450
Effect of common carotid ligation on giant aneurysms of the internal carotid artery. Computerized tomography study, 527
Giant traumatic false aneurysm of the internal carotid artery associated with a carotid-cavernous fistula. Case report, 813
Microsurgical anatomy of the supraclinoid portion of the internal carotid artery, 560
The role of extracranial carotid abnormalities in the genesis of cerebral aneurysms, 693
Carotid body tumor
Maffucci's syndrome complicated by an intracranial chondrosarcoma and a carotid body tumor. Case report, 479
Carotid-cavernous fistula
Balloon catheter occlusion for cavernous carotid artery injury during transsphenoidal hypophysectomy. Case report, 450
Giant traumatic false aneurysm of the internal carotid artery associated with a carotid-cavernous fistula. Case report, 813
Treatment of 54 traumatic carotid-cavernous fistulas, 678
Carotid ligation
Huge intraoral aneurysm presenting with dysphagia and dyspnea successfully treated by STA-MCA anastomosis and ICA ligation. Case report, 625
Carotid occlusion
Recurrent retinal ischemia beyond cervical carotid occlusions. Clinical-angiographic correlations and therapeutic implications, 532
Spontaneous reversal of ICA occlusion. Letters, 663
Catecholamines
Catecholamine neurotransmitters, psychoactive drugs, and biological clocks. The 1981 Harvey Cushing oration, 669
Catheterization
Percutaneous technique for insertion of atrial catheter. Letter, 1012
Cavernous angioma
Microsurgical removal of paraventricular cavernous angiomas. Report of two cases, 308
Cavernous sinus, *see also* Carotid-cavernous fistula
Bilateral cavernous sinus metastasis and ophthalmoplegia. Case report, 463
CCNU, *see* Chemotherapy
Central nervous system
High-dose cyclophosphamide chemotherapy for recurrent CNS tumors in children, 749
Primary demyelinating disease simulating glioma of the corpus callosum. Report of three cases, 620
Cerebellar cortex
Zones in the cerebellar cortex. Their organization and potential relevance to cerebellar stimulation, 254
Cerebellar stimulation
Zones in the cerebellar cortex. Their organization and potential relevance to cerebellar stimulation, 254
Cerebellar tumor
Clinical and pathological study of dysplastic gangliocytoma. Case report, 318
Cerebral arteriole
Individual variations in response of human cerebral arterioles to vasoactive substances, human plasma, and CSF from patients with aneurysmal SAH, 431
Cerebral blood flow
Cerebral circulation after head injury. Part 3: Does reduced regional cerebral blood flow determine recovery of brain function after blunt head injury? 63
The effects of mannitol on blood viscosity, 550
Effects of profound hypotension on cerebral blood flow during surgery for intracranial aneurysms, 857
Existence and localization of adrenergic neurons in meninges from human adults and fetuses, 438
Regional blood flow and capillary permeability in the ethylnitrosourea-induced rat glioma, 922
Cerebral cortex
Changes in extracellular potassium concentration in cortex and brain stem during the acute phase of experimental closed head injury, 708
The course of chronic subdural hematomas after burr-hole craniostomy and closed-system drainage, 390
Glial membrane potentials and their relationship to $[K^+]_o$ in man and guinea pig. A comparative study of intracellularly marked normal, reactive, and neoplastic glia, 347
Neurons in human epileptic cortex. Response to direct cortical stimulation, 904
Cerebritis
Neuropathological and computerized tomographic findings in experimental brain abscess, 590
Cerebrospinal fluid
Effects of indomethacin and prostacyclin on isolated human pial arteries contracted by CSF from patients with aneurysmal SAH, 877
Fulminant postsurgical *Bacillus cereus* meningitis. Case report, 637
Vasoconstrictor activity in cerebrospinal fluid from patients subjected to early surgery for ruptured intracranial aneurysms, 237
Ceruminous gland
Intracranial ceruminous gland adenocarcinoma, 952
Cervical spine
Anterior decompression for ossification of the posterior longitudinal ligament of the cervical spine, 108
Modified skull tongs for cervical traction. Technical note, 848
Posttraumatic syringomyelia. Case report, 276
Chemotherapy
Alteration of blood-CSF barrier by tumor invasion into the meninges, 445
Efficacy of continuous treatment with radiation in a rat brain-tumor model, 52
Evaluation of CCNU, VM-26 plus CCNU, and procarbazine in supratentorial brain gliomas. Final evaluation of a randomized study, 27
High-dose cyclophosphamide chemotherapy for recurrent CNS tumors in children, 749
Manifestations and therapeutic considerations in pineal yolk-sac tumors. Case report, 303
Osmotic blood-brain barrier disruption in the posterior fossa of the dog, 742
Primitive neuroectodermal tumors of childhood. An approach to therapy, 376
Chiari I deformity
Chiari I "malformation"—an acquired disorder? 604
Childhood
Growing fracture of the skull and the role of computerized tomography. Case report, 470
Hemispheric supratentorial astrocytomas in children. Long-term

results in 29 cases, 170
Hydrocephalus and infratentorial tumors. Incidence, clinical picture, and treatment, 174
Chloride
Adenosine-stimulated astroglial swelling in cat cerebral cortex *in vivo* with total inhibition by a non-diuretic acylaryloxyacid derivative, 364
Chondromyxoid fibroma
Cranial chondromyxoid fibroma. Case report, 1001
Chondrosarcoma
Maffucci's syndrome complicated by an intracranial chondrosarcoma and a carotid body tumor. Case report, 479
Choriocarcinoma
Primary pineal choriocarcinoma with hemorrhage monitored by computerized tomography. Case report, 484
Circle of Willis
Anastomosis between internal carotid artery and anterior cerebral artery with other anomalies of the circle of Willis in a fetal brain, 701
The role of extracranial carotid abnormalities in the genesis of cerebral aneurysms, 693
Coagulation
Hemostasis and computerized tomography in head injury. Their relationship to clinical features, 718
Complement system
Shunt nephritis. Role of the complement system in its pathogenesis and management, 99
Computerized tomography
Diagnosis of intraventricular and cisternal cysticercosis by computerized tomography with positive intraventricular contrast medium, 947
Documentation of fourth ventricle entrapment by metrizamide ventriculography with CT scanning. Report of two cases, 838
Effect of common carotid ligation on giant aneurysms of the internal carotid artery. Computerized tomography study, 527
Fluid blood density level demonstrated by computerized tomography in pituitary apoplexy. Report of two cases, 143
Growing fracture of the skull and the role of computerized tomography. Case report, 470
Hemostasis and computerized tomography in head injury. Their relationship to clinical features, 718
Hydrocephalus in cerebral cysticercosis. Pathogenic and therapeutic considerations, 786
Neuropathological and computerized tomographic findings in experimental brain abscess, 590
Primary demyelinating disease simulating glioma of the corpus callosum. Report of three cases, 620
Primary pineal choriocarcinoma with hemorrhage monitored by computerized tomography. Case report, 484
Subependymoma presenting as subarachnoid hemorrhage. Case report, 643
Unusual CT-dense posterior fossa epidermoid cyst. Case report, 654
Concussion
Changes in extracellular potassium concentration in cortex and brain stem during the acute phase of experimental closed head injury, 708
Creatine kinase isoenzymes in acute brain injury, 511
Congenital malformation
Clinical and pathological study of dysplastic gangliocytoma. Case report, 318
Cortical response
Neurons in human epileptic cortex. Response to direct cortical stimulation, 904
Cranial nerve tumor
Schwannoma of the trochlear nerve. Case report, 132
Craniopharyngioma
Craniopharyngiomas: a critical approach to treatment, 371
Internal irradiation for cystic craniopharyngioma, 896
Pubertas praecox in craniopharyngioma. Case report, 127
Serum prolactin in patients with hypothalamus and pituitary disorders, 194
Successful surgical treatment of an odontogenic ossified craniopharyngioma. Case report, 832
Cranioplasty
Dermatofibrosarcoma protruberans of the scalp treated by radical excision, immediate cranioplasty, and free groin flap. Case report, 640
Recurrent osteoma overlying cranioplasty. Case report, 845
Craniostenosis
Craniosynostosis in vitamin D-resistant rickets. A mouse model, 265
Craniostomy
The course of chronic subdural hematomas after burr-hole craniostomy and closed-system drainage, 390
Craniosynostosis
Craniosynostosis in vitamin D-resistant rickets. A mouse model, 265
Craniotomy
Fibrous ankylosis of the mandible following frontotemporal craniotomy. Case report, 836
"Subacute" postoperative subdural empyema, 761
Treatment of subdural empyema, 82
Creatine kinase
Creatine kinase isoenzymes in acute brain injury, 511
Cubital tunnel syndrome
Ulnar nerve entrapment at the elbow by persistent epitrochleoanconeus muscle. Case report, 830
Cyclophosphamide
High-dose cyclophosphamide chemotherapy for recurrent CNS tumors in children, 749
Cyst
Aneurysmal bone cyst of the skull. Letter, 497
Diagnosis of intraventricular and cisternal cysticercosis by computerized tomography with positive intraventricular contrast medium, 947
Giant cyst of the septum pellucidum. Case report, 646
Growing fracture of the skull and the role of computerized tomography. Case report, 470
Hydrocephalus in cerebral cysticercosis. Pathogenic and therapeutic considerations, 786
Intracerebral cyst due to ectopic choroid plexus. Case report, 651
Meningiomas associated with large cysts with neoplastic cells in the cyst walls. Report of two cases, 473
Middle fossa arachnoid cysts. Letters, 853
Neurosurgical considerations of cysticercosis of the central nervous system, 382
Prepontine epithelium-lined cyst. Case report, 312
Rupture of an aneurysm into a parasellar epidermoid cyst. Case report, 629
Cysticercosis
Diagnosis of intraventricular and cisternal cysticercosis by computerized tomography with positive intraventricular contrast medium, 947
Hydrocephalus in cerebral cysticercosis. Pathogenic and therapeutic considerations, 786
Neurosurgical considerations of cysticercosis of the central nervous system, 382

Dandy-Walker syndrome
Dandy-Walker syndrome. Clinical analysis of 23 cases, 89
Delayed myelopathy
Delayed myelopathy secondary to retained intraspinal metallic fragment. Case report, 979
Demyelinating disease
Primary demyelinating disease simulating glioma of the corpus callosum. Report of three cases, 620

Index

Dermatofibrosarcoma
Dermatofibrosarcoma protruberans of the scalp treated by radical excision, immediate cranioplasty, and free groin flap. Case report, 640
Dexamethasone
A study of glucocorticoid receptors in intracranial tumors, 757
Doppler ultrasound monitor
Cardiac catheters for diagnosis and treatment of venous air embolism. A prospective study in man, 610
Paradoxical cerebral air embolism without an intracardiac septal defect. Case report, 997
Dorsal root entry zone
Dorsal root entry zone lesions to control central pain in paraplegics, 414
Modification of DREZ lesion technique, 1012

Ear lesion
Intracranial ceruminous gland adenocarcinoma, 952
Ectasia
Recurrent subarachnoid hemorrhage complicating cerebral arterial ectasia. Case report, 139
Ectopic choroid plexus
Intracerebral cyst due to ectopic choroid plexus. Case report, 651
Edema
Acute changes in regional brain water content following experimental closed head injury, 407
Adenosine-stimulated astroglial swelling in cat cerebral cortex *in vivo* with total inhibition by a non-diuretic acylaryloxyacid derivative, 364
A study of glucocorticoid receptors in intracranial tumors, 757
Electrophysiological monitoring
Effects of hyperbaric oxygen therapy on long-tract neuronal conduction in the acute phase of spinal cord injury, 501
Embolization
Pathology of arteriovenous malformations embolized with isobutyl-2-cyanoacrylate (bucrylate). Report of two cases, 819
Tentorial arteriovenous malformation presenting as an intracerebral hematoma. Case report, 976
Traumatic exophthalmos due to an uncommon arteriovenous fistula without involvement of the cavernous sinus. Case report, 993
Treatment of 54 traumatic carotid-cavernous fistulas, 678
Encephalopathy
Transient encephalopathy and asterixis following metrizamide myelography. Case report, 826
Enchondromatosis
Maffucci's syndrome complicated by an intracranial chondrosarcoma and a carotid body tumor. Case report, 479
Endodermal tissue
Prepontine epithelium-lined cyst. Case report, 312
Endodermal tumor
Manifestations and therapeutic considerations in pineal yolk-sac tumors. Case report, 303
Endorphin
Evaluation of endorphin content in the CSF of patients with trigeminal neuralgia before and after a Gasserian ganglion thermocoagulation, 935
Ependymal cyst
Intracerebral cyst due to ectopic choroid plexus. Case report, 651
Epidermoid cyst
Rupture of an aneurysm into a parasellar epidermoid cyst. Case report, 629
Epidermoid tumor
Unusual CT-dense posterior fossa epidermoid cyst. Case report, 654
Epidural injection
Cancer pain relieved by long-term epidural morphine with permanent indwelling systems for self-administration, 581

Epilepsy
Glial membrane potentials and their relationship to $[K^+]_o$ in man and guinea pig. A comparative study of intracellularly marked normal, reactive, and neoplastic glia, 347
Neurons in human epileptic cortex. Response to direct cortical stimulation, 904
Neurosurgical considerations of cysticercosis of the central nervous system, 382
Epithelium
Prepontine epithelium-lined cyst. Case report, 312
Epitrochleoanconeus muscle
Ulnar nerve entrapment at the elbow by persistent epitrochleoanconeus muscle. Case report, 830
Erythrocyte
The effects of mannitol on blood viscosity, 550
Esthesioneuroblastoma
Esthesioneuroblastoma. Letters, 154
Evoked potentials
Effect of naloxone on posttraumatic ischemia in experimental spinal contusion, 209
Effects of hyperbaric oxygen therapy on long-tract neuronal conduction in the acute phase of spinal cord injury, 501
Evoked somatosensory potentials to common peroneal nerve stimulation in man, 733
Prognostic implications of early multimodality evoked potentials in severely head-injured patients. A prospective study, 227
Relationship between visual evoked potentials and intracranial pressure, 909
Reversible brain-stem dysfunction following acute traumatic subdural hematoma. A clinical and electrophysiological study, 516
Exophthalmos
Traumatic exophthalmos due to an uncommon arteriovenous fistula without involvement of the cavernous sinus. Case report, 993
External carotid endarterectomy
Recurrent retinal ischemia beyond cervical carotid occlusions. Clinical-angiographic correlations and therapeutic implications, 532
Extra-axial cyst
Dandy-Walker syndrome. Clinical analysis of 23 cases, 89
Extracranial-intracranial bypass
Huge intraoral aneurysm presenting with dysphagia and dyspnea successfully treated by STA-MCA anastomosis and ICA ligation. Case report, 625
Recurrent retinal ischemia beyond cervical carotid occlusions. Clinical-angiographic correlations and therapeutic implications, 532

Fibrin
Hemostasis and computerized tomography in head injury. Their relationship to clinical features, 718
Fibrinogen
Hemostasis and computerized tomography in head injury. Their relationship to clinical features, 718
Fluorocarbon perfusion
Oxygenated fluorocarbon perfusion as treatment of acute spinal cord compression injury in dogs, 725
Fourth ventricle
Posttraumatic syringomyelia. Case report, 276
Symptomatic subependymoma of the fourth ventricle. Case report, 841
Fourth ventricle entrapment
Documentation of fourth ventricle entrapment by metrizamide ventriculography with CT scanning. Report of two cases, 838
Free fat graft
Free fat graft in laminectomy. Letter, 665

Frontal sinus
Late postoperative tension pneumatocele. Case report, 145
Frozen section
Symptomatic subependymoma of the fourth ventricle. Case report, 841

Gangliocytoma
Clinical and pathological study of dysplastic gangliocytoma. Case report, 318
Ganglionectomy
Effect of subarachnoid hemorrhage on contractile responses and noradrenaline release evoked in cat cerebral arteries by histamine, 543
Gasserian ganglion
Evaluation of endorphin content in the CSF of patients with trigeminal neuralgia before and after a Gasserian ganglion thermocoagulation, 935
Germ-cell tumor
Manifestations and therapeutic considerations in pineal yolk-sac tumors. Case report, 303
Germinoma
Pineal tumors in children and adolescents. Treatment by CSF shunting and radiotherapy, 889
Unilateral germinomas involving the basal ganglia and thalamus, 55
Glasgow Coma Scale
Acute head injuries: cooperative efforts in clinical assessment. Letter, 324
Prognostic implications of early multimodality evoked potentials in severely head-injured patients. A prospective study, 227
Glial fibrillary acidic protein
Differentiation of medulloblastoma. Studies including immunohistochemical localization of glial fibrillary acidic protein, 161
Malignant fibrous histiocytoma of the meninges. Histological, ultrastructural, and immunocytochemical studies, 957
Glial tumor
Glial membrane potentials and their relationship to $[K^+]_o$ in man and guinea pig. A comparative study of intracellularly marked normal, reactive, and neoplastic glia, 347
Glioblastoma multiforme
Induction of lethal experimental allergic encephalomyelitis in nonhuman primates and guinea pigs with human glioblastoma multiforme tissue, 32
Reoperation for glioblastoma, 917
Glioma
Complement fixation by IgM and IgG autoantibodies on cultured human glial cells, 19
Evaluation of CCNU, VM-26 plus CCNU, and procarbazine in supratentorial brain gliomas. Final evaluation of a randomized study, 27
High-dose cyclophosphamide chemotherapy for recurrent CNS tumors in children, 749
Immunological aspects of intrinsic glial tumors, 1
Lymphocyte subpopulations and responsiveness in rats bearing intracranial tumors induced by avian sarcoma virus, 554
Regional blood flow and capillary permeability in the ethylnitrosourea-induced rat glioma, 922
Reoperation for glioblastoma, 917
Glossopharyngeal nerve
Selective percutaneous thermocoagulation rhizotomy in essential glossopharyngeal neuralgia, 575
Glucocorticoid receptor
A study of glucocorticoid receptors in intracranial tumors, 757
Granuloma
Intracranial granuloma as an unusual complication of subdural peritoneal shunt. Case report, 136
Groin flap
Dermatofibrosarcoma protruberans of the scalp treated by radical excision, immediate cranioplasty, and free groin flap. Case report, 640
Growing fracture
Growing fracture of the skull and the role of computerized tomography. Case report, 470
Gyrus rectus
Compression of the anterior visual system by the gyrus rectus. Case report, 272

Head-holder
Air embolism from wounds from a pin-type head-holder as a complication of posterior fossa surgery in the sitting position. Case report, 147
Head injury
Acute changes in regional brain water content following experimental closed head injury, 407
Acute head injuries: cooperative efforts in clinical assessment. Letter, 324
Apnea testing in the diagnosis of brain death. Clinical and physiological observations, 942
Barbiturate effects on acute experimental intracranial hypertension, 397
Cerebral circulation after head injury. Part 3: Does reduced regional cerebral blood flow determine recovery of brain function after blunt head injury? 63
Changes in extracellular potassium concentration in cortex and brain stem during the acute phase of experimental closed head injury, 708
Creatine kinase isoenzymes in acute brain injury, 511
Evidence for orbital deformation that may contribute to monocular blindness following minor frontal head trauma, 963
Hemostasis and computerized tomography in head injury. Their relationship to clinical features, 718
Predicting the need for operation in the patient with an occult traumatic intracranial hematoma, 75
Prognostic implications of early multimodality evoked potentials in severely head-injured patients. A prospective study, 227
Relationship between visual evoked potentials and intracranial pressure, 909
Reversible brain-stem dysfunction following acute traumatic subdural hematoma. A clinical and electrophysiological study, 516
Hemangioblastoma
Hypothermia and cardiac arrest in the treatment of giant aneurysms of the cerebral circulation and hemangioblastoma of the medulla, 337
Hemangiopericytoma
Malignant meningioma: clinical and pathological features, 929
Hematoma
Predicting the need for operation in the patient with an occult traumatic intracranial hematoma, 75
Tentorial arteriovenous malformation presenting as an intracerebral hematoma. Case report, 976
Hemodynamics
The role of extracranial carotid abnormalities in the genesis of cerebral aneurysms, 693
Hemorrhage
External ventricular drainage for control of posthemorrhagic hydrocephalus in premature infants, 766
Pituitary apoplexy: its incidence and clinical significance, 187
Primary pineal choriocarcinoma with hemorrhage monitored by computerized tomography. Case report, 484
Hindbrain herniation
Chiari I "malformation"—an acquired disorder? 604
Histamine
Effect of subarachnoid hemorrhage on contractile responses and noradrenaline release evoked in cat cerebral arteries by histamine, 543

Index

Histiocytoma
Malignant fibrous histiocytoma of the meninges. Histological, ultrastructural, and immunocytochemical studies, 957
Holographic interferometry
Evidence for orbital deformation that may contribute to monocular blindness following minor frontal head trauma, 963
Hydrocephalus
Dandy-Walker syndrome. Clinical analysis of 23 cases, 89
Documentation of fourth ventricle entrapment by metrizamide ventriculography with CT scanning. Report of two cases, 838
External ventricular drainage for control of posthemorrhagic hydrocephalus in premature infants, 766
Hydrocephalus and infratentorial tumors. Incidence, clinical picture, and treatment, 174
Hydrocephalus in achondroplasia. Letters, 662
Hydrocephalus in cerebral cysticercosis. Pathogenic and therapeutic considerations, 786
Management of vein of Galen aneurysms. Report of two cases, 457
Neurosurgical considerations of cysticercosis of the central nervous system, 382
Percutaneous technique for insertion of an atrial catheter for CSF shunting. Technical note, 488
Relationship between visual evoked potentials and intracranial pressure, 909
Shunt nephritis. Role of the complement system in its pathogenesis and management, 99
Significance of postshunt ventricular asymmetries, 183
Stereotaxic reconstruction of the aqueduct of Sylvius, 800
Transient abducens paresis after shunting for hydrocephalus. Report of two cases, 467
Hyperbaric oxygen
Effects of hyperbaric oxygen therapy on long-tract neuronal conduction in the acute phase of spinal cord injury, 501
Hyponatremia
Hyponatremia in intracranial disease: perhaps not the syndrome of inappropriate secretion of antidiuretic hormone (SIADH), 938
Hypotension
Effects of profound hypotension on cerebral blood flow during surgery for intracranial aneurysms, 857
Hypothalamus
Pubertas praecox in craniopharyngioma. Case report, 127
Hypothermia
Hypothermia and cardiac arrest in the treatment of giant aneurysms of the cerebral circulation and hemangioblastoma of the medulla, 337

Immune response
Complement fixation by IgM and IgG autoantibodies on cultured human glial cells, 19
Immunological aspects of intrinsic glial tumors, 1
Immunofluorescence
Complement fixation by IgM and IgG autoantibodies on cultured human glial cells, 19
Immunology
Immunological aspects of intrinsic glial tumors, 1
Immunotherapy
Immunological aspects of intrinsic glial tumors, 1
Induction of lethal experimental allergic encephalomyelitis in nonhuman primates and guinea pigs with human glioblastoma multiforme tissue, 32
Inappropriate antidiuretic hormone secretion
Hyponatremia in intracranial disease: perhaps not the syndrome of inappropriate secretion of antidiuretic hormone (SIADH), 938
Indomethacin
Effects of indomethacin and prostacyclin on isolated human pial arteries contracted by CSF from patients with aneurysmal SAH, 877
Infant
Enlarged subarachnoid spaces in infants. Letters, 155
Infarction
Paradoxical cerebral air embolism without an intracardiac septal defect. Case report, 997
Instrumentation
Burr-hole ring-cap and electrode anchoring device. Technical note, 1004
Microsurgical suction device. Letter, 497
Percutaneous technique for insertion of an atrial catheter for CSF shunting. Technical note, 488
Intelligence quotient
Dandy-Walker syndrome. Clinical analysis of 23 cases, 89
Internal carotid artery
Anastomosis between internal carotid artery and anterior cerebral artery with other anomalies of the circle of Willis in a fetal brain, 701
Effect of common carotid ligation on giant aneurysms of the internal carotid artery. Computerized tomography study, 527
Giant traumatic false aneurysm of the internal carotid artery associated with a carotid-cavernous fistula. Case report, 813
Huge intraoral aneurysm presenting with dysphagia and dyspnea successfully treated by STA-MCA anastomosis and ICA ligation. Case report, 625
Microsurgical anatomy of the supraclinoid portion of the internal carotid artery, 560
Spontaneous reversal of ICA occlusion. Letters, 663
Interstitial neuropathy
Isolated hypertrophic interstitial neuropathy of the trigeminal nerve associated with trigeminal neuralgia. Case report of a previously undescribed entity, 987
Intervertebral disc
Conjoined lumbosacral nerve roots. Management of herniated discs and lateral recess stenosis in patients with this anomaly, 585
Intradural disc rupture. Report of two cases, 117
Intracerebral cyst
Intracerebral cyst due to ectopic choroid plexus. Case report, 651
Intracranial pressure
Barbiturate effects on acute experimental intracranial hypertension, 397
Detection of skull expansion with increased intracranial pressure, 811
Effects of positive end-expiratory pressure on intracranial pressure in dogs with intracranial hypertension, 704
Intracranial pressure following optic nerve decompression for benign intracranial hypertension. Case report, 453
Predicting the need for operation in the patient with an occult traumatic intracranial hematoma, 75
Relationship between visual evoked potentials and intracranial pressure, 909
Significance of postshunt ventricular asymmetries, 183
Intravascular coagulation
Hemostasis and computerized tomography in head injury. Their relationship to clinical features, 718
Intravascular coagulopathy
Huge intraoral aneurysm presenting with dysphagia and dyspnea successfully treated by STA-MCA anastomosis and ICA ligation. Case report, 625
Ischemia
Acute changes in regional brain water content following experimental closed head injury, 407
Barbiturate-induced coma therapy for focal cerebral ischemia. Effect after temporary and permanent MCA occlusion, 220
Cerebral circulation after head injury. Part 3: Does reduced regional cerebral blood flow determine recovery of brain function after blunt head injury? 63
The effects of mannitol on blood viscosity, 550

Jaw
Fibrous ankylosis of the mandible following frontotemporal craniotomy. Case report, 836

L-dopa
Effect of trigeminal tractotomy on behavioral response to dental pulp stimulation in the monkey, 420
Laminectomy
Free fat graft in laminectomy. Letter, 665
Leiomyosarcoma
Primary intracranial liposarcomas. Letter, 1011
Leptomeningeal cyst
Growing fracture of the skull and the role of computerized tomography. Case report, 470
Lhermitte-Duclos disease
Clinical and pathological study of dysplastic gangliocytoma. Case report, 318
Liposarcoma
Primary intracranial liposarcomas. Letter, 1011
Lymphomatoid granulomatosis
Lymphomatoid granulomatosis with multiple intracranial lesions. Case report, 293

Maffucci's syndrome
Maffucci's syndrome complicated by an intracranial chondrosarcoma and a carotid body tumor. Case report, 479
Mandible
Fibrous ankylosis of the mandible following frontotemporal craniotomy. Case report, 836
Mannitol
The effects of mannitol on blood viscosity, 550
Medulla
Apnea testing in the diagnosis of brain death. Clinical and physiological observations, 942
Medulloblastoma
Differentiation of medulloblastoma. Studies including immunohistochemical localization of glial fibrillary acidic protein, 161
High-dose cyclophosphamide chemotherapy for recurrent CNS tumors in children, 749
Multiple meningiomas following radiation therapy for medulloblastoma. Case report, 282
Radiation treatment for medulloblastoma. A 21-year review, 43
Membrane potential
Glial membrane potentials and their relationship to $[K^+]_o$ in man and guinea pig. A comparative study of intracellularly marked normal, reactive, and neoplastic glia, 347
Meningeal carcinoma
Alteration of blood-CSF barrier by tumor invasion into the meninges, 445
Meninges
Malignant fibrous histiocytoma of the meninges. Histological, ultrastructural, and immunocytochemical studies, 957
Meningioma
Compression of the anterior visual system by the gyrus rectus. Case report, 272
Malignant meningioma: clinical and pathological features, 929
Meningiomas associated with large cysts with neoplastic cells in the cyst walls. Report of two cases, 473
Multiple meningiomas following radiation therapy for medulloblastoma. Case report, 282
Serum prolactin in patients with hypothalamus and pituitary disorders, 194

Meningitis
Fulminant postsurgical *Bacillus cereus* meningitis. Case report, 637
Infarction of the spinal cord as a complication of pneumococcal meningitis. Case report, 121
Meningocele
Spinal cord herniation into a congenital extradural arachnoid cyst causing Brown-Séquard syndrome. Case report, 983
Mesencephalon
Conservative management of a mesencephalic tuberculoma. Case report, 287
Methotrexate
Osmotic blood-brain barrier disruption in the posterior fossa of the dog, 742
Methylprednisolone
Effect of methylprednisolone in compression trauma to the feline spinal cord, 200
Metrizamide
Conjoined lumbosacral nerve roots. Management of herniated discs and lateral recess stenosis in patients with this anomaly, 585
Documentation of fourth ventricle entrapment by metrizamide ventriculography with CT scanning. Report of two cases, 838
Transient encephalopathy and asterixis following metrizamide myelography. Case report, 826
Microsurgical anatomy
Anastomosis between internal carotid artery and anterior cerebral artery with other anomalies of the circle of Willis in a fetal brain, 701
Middle cerebral artery
Barbiturate-induced coma therapy for focal cerebral ischemia. Effect after temporary and permanent MCA occlusion, 220
Morphine
Cancer pain relieved by long-term epidural morphine with permanent indwelling systems for self-administration, 581
Multiple aneurysms
Risk of bleeding from unruptured aneurysms in cases with multiple intracranial aneurysms, 524
Multiple sclerosis
Primary demyelinating disease simulating glioma of the corpus callosum. Report of three cases, 620
Multiple tumors
Multiple meningiomas following radiation therapy for medulloblastoma. Case report, 282
Simultaneously occurring prolactinomas. Case report, 124
Myelography
Conjoined lumbosacral nerve roots. Management of herniated discs and lateral recess stenosis in patients with this anomaly, 585
Spinal cord herniation into a congenital extradural arachnoid cyst causing Brown-Séquard syndrome. Case report, 983
Myelography complication
Transient encephalopathy and asterixis following metrizamide myelography. Case report, 826
Myocardial infarction
Creatine kinase isoenzymes in acute brain injury, 511
Myofascial band
Superficial peroneal nerve entrapment. Report of two cases, 991

Naloxone
Effect of naloxone on posttraumatic ischemia in experimental spinal contusion, 209
Nephritis
Shunt nephritis. Role of the complement system in its pathogenesis and management, 99
Nerve entrapment
Superficial peroneal nerve entrapment. Report of two cases, 991

Ulnar nerve entrapment at the elbow by persistent epitrochleoanconeus muscle. Case report, 830
Nerve root
Conjoined lumbosacral nerve roots. Management of herniated discs and lateral recess stenosis in patients with this anomaly, 585
Neuralgia
Selective percutaneous thermocoagulation rhizotomy in essential glossopharyngeal neuralgia, 575
Neurilemmoma
Schwannoma of the trochlear nerve. Case report, 132
Neuroectodermal tumor
Primitive neuroectodermal tumors of childhood. An approach to therapy, 376
Neuroepithelial cyst
Prepontine epithelium-lined cyst. Case report, 312
Neuroglia
Differentiation of medulloblastoma. Studies including immunohistochemical localization of glial fibrillary acidic protein, 161
Neuron
Changes in extracellular potassium concentration in cortex and brain stem during the acute phase of experimental closed head injury, 708
Existence and localization of adrenergic neurons in meninges from human adults and fetuses, 438
Neuroscience
Traditions, Transition, and the Torch. The 1981 AANS presidential address, 329
Neurosurgical education
Society of Neurological Surgeons survey of resident applicant pool, 1979–1980. Letter, 660
Traditions, Transition, and the Torch. The 1981 AANS presidential address, 329
Neurosurgical technique
Dorsal root entry zone lesions to control central pain in paraplegics, 414
Microsurgical suction device. Letter, 497
Modification of DREZ lesion technique, 012
Percutaneous technique for insertion of an atrial catheter for CSF shunting. Technical note, 488
Percutaneous technique for insertion of atrial catheter. Letter, 1012
Selective percutaneous thermocoagulation rhizotomy in essential glossopharyngeal neuralgia, 575
A successful approach to vertebrobasilar aneurysms. Technical note, 491
Neurotransmitter
Catecholamine neurotransmitters, psychoactive drugs, and biological clocks. The 1981 Harvey Cushing oration, 669
Nitroglycerin
Intravenous nitroglycerin for the treatment of chronic cerebral vasoconstriction in the primate, 865
Noradrenaline
Effect of subarachnoid hemorrhage on contractile responses and noradrenaline release evoked in cat cerebral arteries by histamine, 543
Existence and localization of adrenergic neurons in meninges from human adults and fetuses, 438

Obex
Posttraumatic syringomyelia. Case report, 276
Odontoameloblastoma
Successful surgical treatment of an odontogenic ossified craniopharyngioma. Case report, 832
Odontogenic tumor
Successful surgical treatment of an odontogenic ossified craniopharyngioma. Case report, 832
Oncogenesis
Multiple meningiomas following radiation therapy for medulloblastoma. Case report, 282
Ophthalmoplegia
Bilateral cavernous sinus metastasis and ophthalmoplegia. Case report, 463
Optic chiasm
Compression of the anterior visual system by the gyrus rectus. Case report, 272
Optic nerve
Compression of the anterior visual system by the gyrus rectus. Case report, 272
Evidence for orbital deformation that may contribute to monocular blindness following minor frontal head trauma, 963
Intracranial pressure following optic nerve decompression for benign intracranial hypertension. Case report, 453
Orbital deformation
Evidence for orbital deformation that may contribute to monocular blindness following minor frontal head trauma, 963
Osteogenic sarcoma
Primary osteogenic sarcoma of the sellar region. Case report, 299
Osteoma
Recurrent osteoma overlying cranioplasty. Case report, 845

Pain
Cancer pain relieved by long-term epidural morphine with permanent indwelling systems for self-administration, 581
Dorsal root entry zone lesions to control central pain in paraplegics, 414
Effect of trigeminal tractotomy on behavioral response to dental pulp stimulation in the monkey, 420
Epidural stimulation for vascular disease of extremities. Letter, 664
Selective percutaneous thermocoagulation rhizotomy in essential glossopharyngeal neuralgia, 575
Papilledema
Intracranial pressure following optic nerve decompression for benign intracranial hypertension. Case report, 453
Paraplegia
Dorsal root entry zone lesions to control central pain in paraplegics, 414
Parasellar tumor
Craniopharyngiomas: a critical approach to treatment, 371
Periosteum
Recurrent osteoma overlying cranioplasty. Case report, 845
Peripheral nerve
Radiofrequency neurolysis in a clinical model. Neuropathological correlation, 246
Superficial peroneal nerve entrapment. Report of two cases, 991
Peroneal nerve
Evoked somatosensory potentials to common peroneal nerve stimulation in man, 733
Superficial peroneal nerve entrapment. Report of two cases, 991
Pial artery
Effects of indomethacin and prostacyclin on isolated human pial arteries contracted by CSF from patients with aneurysmal SAH, 877
Pineal gland
Catecholamine neurotransmitters, psychoactive drugs, and biological clocks. The 1981 Harvey Cushing oration, 669
Management of vein of Galen aneurysms. Report of two cases, 457
Pineal tumor
Manifestations and therapeutic considerations in pineal yolk-sac tumors. Case report, 303
Pineal tumors in children and adolescents. Treatment by CSF shunting and radiotherapy, 889

Primary pineal choriocarcinoma with hemorrhage monitored by computerized tomography. Case report, 484
Pinealoma
Pineal tumors in children and adolescents. Treatment by CSF shunting and radiotherapy, 889
Pituitary adenoma
Pituitary apoplexy: its incidence and clinical significance, 187
Serum prolactin in patients with hypothalamus and pituitary disorders, 194
Simultaneously occurring prolactinomas. Case report, 124
Pituitary apoplexy
Fluid blood density level demonstrated by computerized tomography in pituitary apoplexy. Report of two cases, 143
Pituitary apoplexy: its incidence and clinical significance, 187
Pituitary tumor
Cerebellar metastasis from a prolactinoma during treatment with bromocriptine. Case report, 615
Pneumocephalus
Late postoperative tension pneumatocele. Case report, 145
Positive end-expiratory pressure
Effects of positive end-expiratory pressure on intracranial pressure in dogs with intracranial hypertension, 704
Posterior circulation
Transpositions and anastomoses between the posterior cerebral and superior cerebellar arteries. Report of two cases, 967
Posterior fossa
Osmotic blood-brain barrier disruption in the posterior fossa of the dog, 742
Posterior fossa surgery
Air embolism from wounds from a pin-type head-holder as a complication of posterior fossa surgery in the sitting position. Case report, 147
Paradoxical cerebral air embolism without an intracardiac septal defect. Case report, 997
Posterior fossa tumor
Hydrocephalus and infratentorial tumors. Incidence, clinical picture, and treatment, 174
Unusual CT-dense posterior fossa epidermoid cyst. Case report, 654
Posterior longitudinal ligament
Anterior decompression for ossification of the posterior longitudinal ligament of the cervical spine, 108
Potassium
Changes in extracellular potassium concentration in cortex and brain stem during the acute phase of experimental closed head injury, 708
Potassium concentration
Glial membrane potentials and their relationship to $[K^+]_o$ in man and guinea pig. A comparative study of intracellularly marked normal, reactive, and neoplastic glia, 347
Precocious puberty
Pubertas praecox in craniopharyngioma. Case report, 127
Prematurity
External ventricular drainage for control of posthemorrhagic hydrocephalus in premature infants, 766
Prognosis
Acute head injuries: cooperative efforts in clinical assessment. Letter, 324
Cerebral circulation after head injury. Part 3: Does reduced regional cerebral blood flow determine recovery of brain function after blunt head injury? 63
Predicting the need for operation in the patient with an occult traumatic intracranial hematoma, 75
Prognostic implications of early multimodality evoked potentials in severely head-injured patients. A prospective study, 227
Prolactin
Serum prolactin in patients with hypothalamus and pituitary disorders, 194
Prolactinoma
Cerebellar metastasis from a prolactinoma during treatment with bromocriptine. Case report, 615
Simultaneously occurring prolactinomas. Case report, 124
Prostacyclin
Effects of indomethacin and prostacyclin on isolated human pial arteries contracted by CSF from patients with aneurysmal SAH, 877
Evaluation of prostaglandin biosynthetic activity in canine basilar artery following subarachnoid injection of blood, 771
Prostaglandin metabolism in experimental cerebral vasospasm, 779
Prostaglandin
Evaluation of prostaglandin biosynthetic activity in canine basilar artery following subarachnoid injection of blood, 771
Prostaglandin metabolism in experimental cerebral vasospasm, 779
Pseudotumor cerebri
Intracranial pressure following optic nerve decompression for benign intracranial hypertension. Case report, 453
Psychoactive drug
Catecholamine neurotransmitters, psychoactive drugs, and biological clocks. The 1981 Harvey Cushing oration, 669
Pubertas praecox
Pubertas praecox in craniopharyngioma. Case report, 127
Pulmonary artery pressure
Cardiac catheters for diagnosis and treatment of venous air embolism. A prospective study in man, 610
Radiation therapy
Craniopharyngiomas: a critical approach to treatment, 371
Efficacy of continuous treatment with radiation in a rat brain-tumor model, 52
Evaluation of CCNU, VM-26 plus CCNU, and procarbazine in supratentorial brain gliomas. Final evaluation of a randomized study, 27
Internal irradiation for cystic craniopharyngioma, 896
Manifestations and therapeutic considerations in pineal yolk-sac tumors. Case report, 303
Multiple meningiomas following radiation therapy for medulloblastoma. Case report, 282
Pineal tumors in children and adolescents. Treatment by CSF shunting and radiotherapy, 889
Primitive neuroectodermal tumors of childhood. An approach to therapy, 376
Radiation treatment for medulloblastoma. A 21-year review, 43
Unilateral germinomas involving the basal ganglia and thalamus, 55
Radiofrequency neurolysis
Radiofrequency neurolysis in a clinical model. Neuropathological correlation, 246
Radioisotope study
Internal irradiation for cystic craniopharyngioma, 896
Research support
Traditions, Transition, and the Torch. The 1981 AANS presidential address, 329
Respiratory distress syndrome
Effects of positive end-expiratory pressure on intracranial pressure in dogs with intracranial hypertension, 704
Respiratory physiology
Apnea testing in the diagnosis of brain death. Clinical and physiological observations, 942
Revascularization
Transpositions and anastomoses between the posterior cerebral and superior cerebellar arteries. Report of two cases, 967
Rhinorrhea
Late postoperative tension pneumatocele. Case report, 145
Rhizotomy
Radiofrequency neurolysis in a clinical model. Neuropathological correlation, 246

Index

Rickets
Craniosynostosis in vitamin D-resistant rickets. A mouse model, 265
Ruptured disc
Intradural disc rupture. Report of two cases, 117

Salt wasting
Hyponatremia in intracranial disease: perhaps not the syndrome of inappropriate secretion of antidiuretic hormone (SIADH), 938
Sarcoma
Maffucci's syndrome complicated by an intracranial chondrosarcoma and a carotid body tumor. Case report, 479
Primary osteogenic sarcoma of the sellar region. Case report, 299
Scalp lesion
Dermatofibrosarcoma protruberans of the scalp treated by radical excision, immediate cranioplasty, and free groin flap. Case report, 640
Schwannoma
Schwannoma of the trochlear nerve. Case report, 132
Sella turcica
Primary osteogenic sarcoma of the sellar region. Case report, 299
Septum pellucidum
Giant cyst of the septum pellucidum. Case report, 646
Serotonin
Effect of subarachnoid hemorrhage on contractile responses and noradrenaline release evoked in cat cerebral arteries by histamine, 543
Shunt
Chiari I "malformation"—an acquired disorder? 604
Dandy-Walker syndrome. Clinical analysis of 23 cases, 89
Documentation of fourth ventricle entrapment by metrizamide ventriculography with CT scanning. Report of two cases, 838
Hydrocephalus and infratentorial tumors. Incidence, clinical picture, and treatment, 174
Hydrocephalus in achondroplasia. Letters, 662
Intracranial granuloma as an unusual complication of subdural peritoneal shunt. Case report, 136
Percutaneous technique for insertion of an atrial catheter for CSF shunting. Technical note, 488
Pineal tumors in children and adolescents. Treatment by CSF shunting and radiotherapy, 889
Significance of postshunt ventricular asymmetries, 183
Transient abducens paresis after shunting for hydrocephalus. Report of two cases, 467
Shunt infection
Shunt nephritis. Role of the complement system in its pathogenesis and management, 99
Vancomycin and rifampin therapy for *Staphylococcus epidermidis* meningitis associated with CSF shunts. Report of three cases, 633
Skeletal traction
Modified skull tongs for cervical traction. Technical note, 848
Skull expansion
Detection of skull expansion with increased intracranial pressure, 811
Skull fracture
Growing fracture of the skull and the role of computerized tomography. Case report, 470
Traumatic exophthalmos due to an uncommon arteriovenous fistula without involvement of the cavernous sinus. Case report, 993
Skull lesion
Aneurysmal bone cyst of the skull. Letter, 497
Skull tongs
Modified skull tongs for cervical traction. Technical note, 848
Skull tumor
Cranial chondromyxoid fibroma. Case report, 1001
Recurrent osteoma overlying cranioplasty. Case report, 845
Society of Neurological Surgeons
Society of Neurological Surgeons survey of resident applicant pool, 1979–1980. Letter, 660
Specific gravity
Acute changes in regional brain water content following experimental closed head injury, 407
Spinal cord
Cancer pain relieved by long-term epidural morphine with permanent indwelling systems for self-administration, 581
Infarction of the spinal cord as a complication of pneumococcal meningitis. Case report, 121
Spinal cord herniation into a congenital extradural arachnoid cyst causing Brown-Séquard syndrome. Case report, 983
Spinal cord blood flow
Spinal cord blood flow. Letters, 663
Spinal cord compression
Anterior decompression for ossification of the posterior longitudinal ligament of the cervical spine, 108
Effect of methylprednisolone in compression trauma to the feline spinal cord, 200
Spinal cord injury
Delayed myelopathy secondary to retained intraspinal metallic fragment. Case report, 979
Effect of methylprednisolone in compression trauma to the feline spinal cord, 200
Effect of naloxone on posttraumatic ischemia in experimental spinal contusion, 209
Effects of hyperbaric oxygen therapy on long-tract neuronal conduction in the acute phase of spinal cord injury, 501
Evoked somatosensory potentials to common peroneal nerve stimulation in man, 733
Oxygenated fluorocarbon perfusion as treatment of acute spinal cord compression injury in dogs, 725
Posttraumatic syringomyelia. Case report, 276
Spinal cord stimulation
Epidural stimulation for vascular disease of extremities. Letter, 664
Spinal cord tumor
Intradural tuberculomas of the spinal cord. Report of two cases, 289
Spinal decompression
Free fat graft in laminectomy. Letter, 665
Spinal ligament
Anterior decompression for ossification of the posterior longitudinal ligament of the cervical spine, 108
Spinal stenosis
Conjoined lumbosacral nerve roots. Management of herniated discs and lateral recess stenosis in patients with this anomaly, 585
Stab wound
Delayed myelopathy secondary to retained intraspinal metallic fragment. Case report, 979
Staphyloccus epidermidis
Vancomycin and rifampin therapy for *Staphylococcus epidermidis* meningitis associated with CSF shunts. Report of three cases, 633
Stenosis
The role of extracranial carotid abnormalities in the genesis of cerebral aneurysms, 693
Stereotaxic surgery
Stereotaxic reconstruction of the aqueduct of Sylvius, 800
Strain gauge
Detection of skull expansion with increased intracranial pressure, 811
Streptococcus pneumoniae
Infarction of the spinal cord as a complication of pneumococcal meningitis. Case report, 121

Stroke
Barbiturate-induced coma therapy for focal cerebral ischemia. Effect after temporary and permanent MCA occlusion, 220
Strychnine
Effect of trigeminal tractotomy on behavioral response to dental pulp stimulation in the monkey, 420
Subarachnoid effusion
Enlarged subarachnoid spaces in infants. Letters, 155
Subarachnoid hemorrhage
Antifibrinolytic therapy in subarachnoid hemorrhage. Letters, 155
Effect of subarachnoid hemorrhage on contractile responses and noradrenaline release evoked in cat cerebral arteries by histamine, 543
Effects of profound hypotension on cerebral blood flow during surgery for intracranial aneurysms, 857
Evaluation of prostaglandin biosynthetic activity in canine basilar artery following subarachnoid injection of blood, 771
Individual variations in response of human cerebral arterioles to vasoactive substances, human plasma, and CSF from patients with aneurysmal SAH, 431
Intravenous nitroglycerin for the treatment of chronic cerebral vasoconstriction in the primate, 865
Recurrent subarachnoid hemorrhage complicating cerebral arterial ectasia. Case report, 139
Subarachnoid hemorrhage and cerebrovascular spasm. Morphological study of intracranial arteries based on animal experiments and human autopsies, 869
Subependymoma presenting as subarachnoid hemorrhage. Case report, 643
Subdural drainage
The course of chronic subdural hematomas after burr-hole craniostomy and closed-system drainage, 390
Intracranial granuloma as an unusual complication of subdural peritoneal shunt. Case report, 136
Subdural empyema
"Subacute" postoperative subdural empyema, 761
Treatment of subdural empyema, 82
Subdural hematoma
The course of chronic subdural hematomas after burr-hole craniostomy and closed-system drainage, 390
Reversible brain-stem dysfunction following acute traumatic subdural hematoma. A clinical and electrophysiological study, 516
"Subacute" postoperative subdural empyema, 761
Treatment of chronic subdural hematomas. Letters, 011
Subdural peritoneal shunt
Intracranial granuloma as an unusual complication of subdural peritoneal shunt. Case report, 136
Subependymoma
Subependymoma presenting as subarachnoid hemorrhage. Case report, 643
Symptomatic subependymoma of the fourth ventricle. Case report, 841
Suction device
Microsurgical suction device. Letter, 497
Suprasellar cistern
Compression of the anterior visual system by the gyrus rectus. Case report, 272
Suprasellar tumor
Pubertas praecox in craniopharyngioma. Case report, 127
Serum prolactin in patients with hypothalamus and pituitary disorders, 194
Swan-Ganz catheter
Cardiac catheters for diagnosis and treatment of venous air embolism. A prospective study in man, 610
Sympathetic innervation
Existence and localization of adrenergic neurons in meninges from human adults and fetuses, 438
Syringomyelia
Chiari I "malformation"—an acquired disorder? 604
Posttraumatic syringomyelia. Case report, 276

Taenia solium, see Cysticercosis
Temporal lobe
Neurons in human epileptic cortex. Response to direct cortical stimulation, 904
Thalamus
Unilateral germinomas involving the basal ganglia and thalamus, 55
Thermocoagulation
Evaluation of endorphin content in the CSF of patients with trigeminal neuralgia before and after a Gasserian ganglion thermocoagulation, 935
Selective percutaneous thermocoagulation rhizotomy in essential glossopharyngeal neuralgia, 575
Thrombosis
Effect of common carotid ligation on giant aneurysms of the internal carotid artery. Computerized tomography study, 527
Transclival approach
A successful approach to vertebrobasilar aneurysms. Technical note, 491
Transient ischemic attack
Recurrent retinal ischemia beyond cervical carotid occlusions. Clinical-angiographic correlations and therapeutic implications, 532
Transsphenoidal hypophysectomy
Balloon catheter occlusion for cavernous carotid artery injury during transsphenoidal hypophysectomy. Case report, 450
Fulminant postsurgical *Bacillus cereus* meningitis. Case report, 637
Traumatic aneurysm
Giant traumatic false aneurysm of the internal carotid artery associated with a carotid-cavernous fistula. Case report, 813
Trigeminal nerve
Bilateral cavernous sinus metastasis and ophthalmoplegia. Case report, 463
Effect of trigeminal tractotomy on behavioral response to dental pulp stimulation in the monkey, 420
Trigeminal neuralgia
Evaluation of endorphin content in the CSF of patients with trigeminal neuralgia before and after a Gasserian ganglion thermocoagulation, 935
Isolated hypertrophic interstitial neuropathy of the trigeminal nerve associated with trigeminal neuralgia. Case report of a previously undescribed entity, 987
Trigeminal tractotomy
Effect of trigeminal tractotomy on behavioral response to dental pulp stimulation in the monkey, 420
Trismus
Fibrous ankylosis of the mandible following frontotemporal craniotomy. Case report, 836
Trochlear nerve
Schwannoma of the trochlear nerve. Case report, 132
Tuberculoma
Conservative management of a mesencephalic tuberculoma. Case report, 287
Intradural tuberculomas of the spinal cord. Report of two cases, 289

Ulnar nerve
Ulnar nerve entrapment at the elbow by persistent epitrochleoanconeus muscle. Case report, 830

Vasculitis
Lymphomatoid granulomatosis with multiple intracranial lesions. Case report, 293

Index

Vasoactive substance
Individual variations in response of human cerebral arterioles to vasoactive substances, human plasma, and CSF from patients with aneurysmal SAH, 431
Vasoconstriction
Individual variations in response of human cerebral arterioles to vasoactive substances, human plasma, and CSF from patients with aneurysmal SAH, 431
Intravenous nitroglycerin for the treatment of chronic cerebral vasoconstriction in the primate, 865
Vasoconstrictor activity in cerebrospinal fluid from patients subjected to early surgery for ruptured intracranial aneurysms, 237
Vasospasm
Effect of subarachnoid hemorrhage on contractile responses and noradrenaline release evoked in cat cerebral arteries by histamine, 543
Effects of indomethacin and prostacyclin on isolated human pial arteries contracted by CSF from patients with aneurysmal SAH, 877
Effects of profound hypotension on cerebral blood flow during surgery for intracranial aneurysms, 857
Evaluation of prostaglandin biosynthetic activity in canine basilar artery following subarachnoid injection of blood, 771
Individual variations in response of human cerebral arterioles to vasoactive substances, human plasma, and CSF from patients with aneurysmal SAH, 431
Intravenous nitroglycerin for the treatment of chronic cerebral vasoconstriction in the primate, 865
Prostaglandin metabolism in experimental cerebral vasospasm, 779
Reversal of experimental delayed cerebral vasospasm by angiotensin-converting enzyme inhibition, 884
Subarachnoid hemorrhage and cerebrovascular spasm. Morphological study of intracranial arteries based on animal experiments and human autopsies, 869
Vasoconstrictor activity in cerebrospinal fluid from patients subjected to early surgery for ruptured intracranial aneurysms, 237
Vein of Galen
Management of vein of Galen aneurysms. Report of two cases, 457
Venous air embolism
Paradoxical cerebral air embolism without an intracardiac septal defect. Case report, 997
Ventricle
Giant cyst of the septum pellucidum. Case report, 646
Microsurgical removal of paraventricular cavernous angiomas. Report of two cases, 308
Ventriculitis
Neurosurgical considerations of cysticercosis of the central nervous system, 382
Ventriculography
Documentation of fourth ventricle entrapment by metrizamide ventriculography with CT scanning. Report of two cases, 838
Ventriculostomy
External ventricular drainage for control of posthemorrhagic hydrocephalus in premature infants, 766
Virus
Lymphocyte subpopulations and responsiveness in rats bearing intracranial tumors induced by avian sarcoma virus, 554
Visual evoked potentials
Relationship between visual evoked potentials and intracranial pressure, 909

Wegener's granulomatosis
Lymphomatoid granulomatosis with multiple intracranial lesions. Case report, 293

Xanthomatous tumor
Malignant fibrous histiocytoma of the meninges. Histological, ultrastructural, and immunocytochemical studies, 957

Yolk-sac tumor
Manifestations and therapeutic considerations in pineal yolk-sac tumors. Case report, 303
